WORK

Toast Dating — Startup Project (Part-time)

Product Designer

April 2020 - Present | Remote

Designing a dating app experience that begins with a genuine endorsement from a friend.

Created user flows, mockups, wireframes, prototypes, and design system library.

Planned and conducted beta test user interviews and collected feedback, and presented key findings to cross-functional teams.

Designed and implemented the web landing page and contributed to iOS app development.

Collaborated with UX designer, Backend Developer, and Marketing Copywriter.

Megabuck Carwash Inc.

Manager

June 2018 - Present | Anaheim, CA

Designed and coded the website using HTML, CSS, and JS.

Promoted customer-centered business, conducting customer interviews and collecting feedback leading to product inventory and pricing iteration resulting in 50% increase in revenue.

UCSD Cognitive Science Department

Instructional Apprentice

March 2017 - June 2017 | La Jolla, CA

Facilitated studio design critique sessions, providing design knowledge and feedback to more than 200 students.
